

Unified Dashboard

Today every company is exploding with data. We live in an age where we should collect, analyze, and visualize data in a new way to make smarter, fact-based business decisions.

Bizgrass Dashboard is a Cloud enabled, data visualization tool that collects data, analyzes it and makes it a real insight. It provides the user flexibility to create a beautiful, interactive dashboard which allows users to really go to the data they need. The main idea is to have a centralized Dashboard for CRM, Reporting, Analytics, Prediction, and Forecasting – to have all the useful information available spontaneously.

KEY BUSINESS CHALLENGES

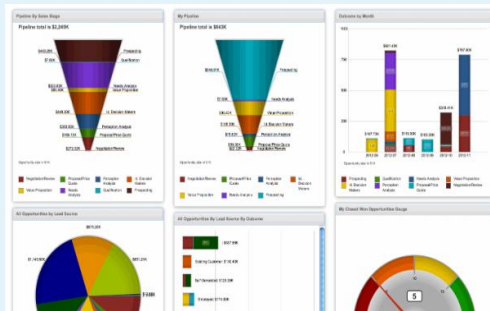

- Keeping important metrics front-of-mind
- Monitoring key performance drivers
- Drilling-down, filtering, slicing and sorting data
- Centralizing and standardizing your data
- Visualizing data for improved understanding

BUSINESS OBJECTIVES

Usually business owners are unaware of the day to day happening of their business, as a result by the time they get to know about news from their staff it's too late to improve on problems. To handle these situations

Bizgrass provide a dashboard for every business need all under single login. Add your own widgets according to the role you serve visualize and monitor important aspects of business and enhance your response time to problems.

SAMPLE DASHBOARD
